

THE NORTH REMEMBERS GOT SEASON 8 FANTASY DRAFT

ALL MEN MUST DIE

GAME OF THRONES

If you're new to Fantasy Drafts, how they work, overall goal, etc, check out the video on our [YouTube page](https://youtube.com/c/multipoptural) (youtube.com/c/multipoptural) called GoT Fantasy Draft Intro Video (Should be out by 3/25/19).

We've set up 3 draft boards. One draft board for 6 people (houses) to draft 5 of the 32 characters we listed in 5 rounds, and one draft board for 8 houses to draft 4 characters in 4 rounds. If you want to have 5 friends draft 6 characters, or 4 friends draft 8 characters, you're welcome to it, so we made a universal draft board for 4 - 8 houses.

Once your draft is completed the teams (houses) are set. We have a weekly scoring sheet for each team (house) and the person in charge (Warden) of your league. See our [blog page](#) for links to all the draft pdfs.

Wednesdays following each episode, we will have an episode recap and release the scores for each character on our [YouTube page](#) (Be sure to subscribe to our channel for notifications). Tally up the scores to see who is leading week to week, with the champion being the house who has the most combined points by the end of the final episode.

As fans of the show, we wanted to come up with something fun, that we hope you and your friends can enjoy during the final season!

GAME OF THRONES

FAQs (Yes there are literally hundreds of outcomes that can happen, but we tried to make this as stress free as possible)

- ***To get credit for the +3 points for making it out of the episode alive (and not a white walker/wight), your character has to be seen in the episode.**
- ****The White Walker +8 points only count for kills against the White Walker Lieutenants. (Normally seen on horseback or leading a group of Wights)**
- **Daenerys gets points for solo kills from Drogon or Rhaegal. If another character were to ride Drogon or Rhaegal while killing one of the other 31 characters, the Night King, or a White Walker, they would get the points.**
- **If Cersei commands the Mountain to kill for her, Cersei gets half the points and The Mountain gets half the points. If The Mountain kills a character on his own free will, he keeps all the points.**
- **If Bran wargs into another one of the other 31 characters for a kill, Bran gets half the points and the character that he warged into gets half the points. If Bran wargs into a random character for a kill, or Ghost, Nymeria, or a Dragon, he would get all points.**
- **If Arya uses your characters face for a kill, your character gets +3 bonus points.**
- **If your character dies, there are no bench spots, your team is now down that/those character(s) for the remainder of the show and season.**

Remember the points COUNT for kills on the list of 32, Dragons, the Night King, and White Walkers (not Wights)
